

Report on
Compliance Assessment Survey under COTPA
2003 in
Bharatpur, Rajasthan

State Institute of Health and Family Welfare
Jalana Institutional Area, South of Doordarshan Kendra
Jaipur 302004

Preface

India has been very conscious of the harmful effects of tobacco use, disease burden and related social and economic costs of health care. Over the period, various administrative measures were taken to prohibit tobacco smoking in public places and regulate the sale of tobacco products and their advertisements. A serious need was felt for framing a comprehensive national legislation on tobacco control, which would ensure uniform and effective enforcement of measures to achieve desired results. After detailed deliberations, the Government of India enacted The Cigarettes and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, 2003 in May 2003 with a view to protect public health by prohibiting smoking in public places, banning advertisements of the tobacco products, banning sale of tobacco products to minors and near educational institutions, prescribing strong health warnings including pictorial depiction on tobacco products and regulation of tar and nicotine contents of tobacco products. So if any person found smoking in public places is liable to pay a fine.

The ban on smoking at public places came into effect from 1st May 2004 and subsequently from 2nd October, 2008 and is applicable all over India. Since then a number of cities in India have gone smoke free. **In Rajasthan Jhunjhunu, Ajmer, Alwar, Jodhpur (City), Nagaur (City), Udaipur (City), Jalore (City) & Pali (City) was declared as the smoke-free districts.** Bharatpur district has been analyzed on the various parameters of COTPA and this report presents a portrait of the district. Looking at the Section 4 of COTPA compliance, Bharatpur district may be declared as smoke free and can be sustained through regular enforcement & monitoring.

Acknowledgements

The study on Compliance Assessment Survey in Bharatpur district of Rajasthan was conducted by the State Institute of Health and Family Welfare, Rajasthan with support of Population Services International, Jaipur, India.

We are thankful to the members of Ethical Committee for approving the study and giving us an opportunity to carry out it.

We are grateful to all Investigators & field supervisors who spared their time in data collection.

We also acknowledge the contribution of data entry operators and statistician who gave us the data in presentable form.

We extend our thanks to all those who have made their direct and indirect contribution in the successful completion of the study.

Director

About PSI

Population Services International, a registered Indian society began operations in India in 1988. PSI's mission is to empower the people of India to lead healthy lives by addressing priority public health challenges in India using social marketing, social franchising and behaviour change communication techniques. PSI focuses on improving consumer access to health products, services and information in 22 states and union territories. PSI focuses on strategic partnerships and fostering of private sector partnerships to address a wide range of public health issues including Reproductive Health, Maternal and Child Survival, Tuberculosis, Water, Sanitation, Hygiene, HIV/AIDS and Non Communicable Diseases such as Tobacco and Diabetes. PSI is also involved in the prevention of lifestyle diseases, through its work in tobacco control. Since 1988, PSI has been part of the Ministry of Health and Family Welfare's Contraceptive Social Marketing program (CSM). PSI's mission is to empower the people of India to lead healthy lives by addressing priority public health challenges in India using social marketing, social franchising and behaviour change communication techniques.

About SIHFW

SIHFW, Rajasthan, Jaipur is an apex level autonomous training and research organization of Department of Medical, Health and Family Welfare, founded in 1995 as a registered society by the Government of Rajasthan (Reg. No.25/Jaipur/1995-96). It is the only ISO 9001:2008 certified training institution in health sector and is self financed (partially supported by NRHM).

The mission of the institute is committed to improvement in Health care through HRD, Health Research, Consultancy, and net working aiming at enhancement in the Quality of life.

SIHFW has adopted the dual strategy to work for the Mission.

1. To develop human resources for health (HRH) through training.
2. Organization development (OD) through operations research.

Being premier health training institute, SIHFW is regularly conducting trainings for medical, para-medical and development professionals of the state, apart from trainings other functions of SIHFW includes

- Research
- Monitoring
- Consultancy
- Documentation
- Collaborating with developmental partners to strengthen maternal and new born child health services in Rajasthan with focus on multi-centric approach.

The major partners are:-

- UNICEF
- UNFPA
- Save the children
- NIPI

SIHFW jointly with development partners is working in High priority Districts to accelerate the pace of efforts for achieving national targets and implementation of RMNCH+ A activities (Dungarpur, Banswara, Barmer and Jalore with UNICEF, Bundi, Jaisalmer, Udaipur with UNFPA and Dholpur and Karauli with NIPI and UNFPA and all three Districts of NIPI – Bharatpur, Dausa and Alwar)

Executive Summary

Tobacco use is a major public health problem in India. The COTPA was developed to curb this epidemic. Intensification of ongoing tobacco control efforts in Bharatpur district with special focus on the effective implementation and compliance of, Section 4-7 of COTPA through development and demonstration of effective and sustainable enforcement mechanisms has been reflected out of the results of this study.

Building tobacco control capacity of Civil Society Organizations (CSO), policy makers, government officials, Panchayati Raj Institution (PRI) members, Accredited Social Health Activists (ASHA) under the National Rural Health Mission (NRHM), Non-Government Organizations (NGO) and key stakeholders involved in tobacco control activities would be critical for better implementation of law at the grassroots. This would not only strengthen compliance with COTPA provisions at village, panchayat and block level but also encourage violation reporting.

SIHFW Jaipur conducted a compliance assessment study in the Bharatpur district of Rajasthan. The objective of the study is to - assess the level of compliance of sections 4, 5, 6 (a), 6 (b) and 7,8,9 of COTPA Act with respect to Public places, Educational Institutes Point of Sale and Warning on Packaging. It is an observational study. Around 366 public places, 357 educational institutions and 351 tobacco retailers were observed in Bharatpur city and block area of Sesar, Bhusawar(Weir), Kumher and Bharatpur rural.

Study findings

The criteria for evaluation (the core indicators) and set decision criteria for a district to qualify for the 'Smoke free' status include six parameters. In Bharatpur district Bharatpur city, Sesar, Bhusawar & Kumher blocks were displaying the COTPA signage at majority of the public places. The indicator showed the compliance of section 4 of COTPA was followed by above 80% in the district. The color coding in the following table depicts result.

Compliance achieved Above 80 %	Need improvement- 61-79 %	Need strict action Below 60 %
-----------------------------------	------------------------------	----------------------------------

Public Places-366							
Sec 4	Bharatpur Blocks						
	Indicators	Bharatpur city N=90	Sewar N=76	Bhusawar/ Weir N=75	Kumher N=75	Bharatpur Rural N=50	Total= 366
	Availability of No Smoking signage	76 (84%)	62 (82%)	62 (83%)	75 (100%)	33 (66%)	308 (84%)
		N=76	N=62	N=62	N=75	N=33	N=308
	"No Smoking" Signage displayed as per COTPA	64 (84%)	50 (81%)	51 (82%)	44 (59%)	27 (81%)	236 (75%)

From total 366 places visited in district Bharatpur, more than 80% compliance of section 4 was achieved by the district. However more enforcement and monitoring is required in Bharatpur rural .Displaying of the signage as per COTPA specification will needs more attention in the Bharatpur district.

Public Places-366							
Sec 4	Bharatpur Blocks						
	Indicators	Bharatpur City N=90	Sewar N=76	Bhusawar/ Weir N=75	Kumher N=75	Bharatpur Rural N=50	Total N=366
	No active Smoking noticed	80 (89%)	74 (97%)	73 (97%)	68 (91%)	44 (88%)	339 (93%)
	Cigarettes or Beedi stubs or ash not found	72 (80%)	71 (93%)	62 (83%)	58 (77%)	40 (80%)	303 (83%)
	No Evidence of smell /ashes of recent smoking	74 (82%)	72 (95%)	63 (84%)	73 (97%)	45 (90%)	326 (89%)
	Smoking aids (ashtray, matchboxes, and lighters) not visible	73 (81%)	72 (95%)	61 (81%)	74 (99%)	45 (90%)	324 (89%)

Active smoking, cigarettes or Beedi stubs, ashes or aids were seen in less number at all the public places observed which suggests that people have become aware of COTPA.

Compliance achieved Above 80 %	Need improvement- 61-79 %	Need strict action Below 60 %
-----------------------------------	------------------------------	----------------------------------

	PoS=351						
	Bharatpur Blocks						
	Indicators	Bharatpur city N=84	Sewar N=76	Bhusawar/ Weir N=75	Kumher N=75	Bharatp ur Rural N=45	Total N=351
Sec 6 (a)	Display of signage	61 (72%)	48 (63%)	50 (66%)	63 (84%)	22 (48%)	244 (70%)
		N=61	N=48	N=50	N=63	N=22	N=244
	Display of signage as per COTPA	61 (100%)	48 (100%)	50 (100%)	63 (100%)	22 (100%)	244 (100%)

The PoS visited in Bharatpur district displayed 70% (244) signage but it is also far from the required compliance. Only Kumher block follows the compliance.

	PoS=351						
	Bharatpur Blocks						
	Indicators	Bharatpur city N=84	Sewar N=76	Bhusawar/ Weir N=75	Kumher N=75	Bharatp ur Rural N=45	Total N=351
Sec 6 (a)	Products are not sold to minors	84 (100%)	74 (97%)	70 (93%)	75 (100%)	31 (68.8%)	334 (95%)
	Products are not sold by minors	73 (87%)	74 (97%)	67 (89%)	74 (98%)	45 (100%)	333 (93%)

In Bharatpur city, Sewar, Bhusawar, Kumher the compliance of Section 6a was above 90% except Bharatpur rural which is as low as 68.8%.

Compliance achieved Above 80 %	Need improvement- 61-79 %	Need strict action Below 60 %
-----------------------------------	------------------------------	----------------------------------

Education Institutions, N=357							
Sec 6 (b)		Bharatpur Block					
	Indicators	Bharatpur city N=84	Sewar N=76	Bhusawar/ Weir N=75	Kumher N=76	Bharatpu r Rural N=45	Total N=357
	Signage as per Section 6 b of COTPA is displayed	75 (89%)	57 (75%)	59 (78%)	52 (68%)	28 (62%)	271 (76%)
	No Sale of Tobacco Products inside the Campus	84 (100%)	76 (100%)	75 (100%)	76 (100%)	45 (100%)	357 (100%)
	No Sale of tobacco products within 100 yards of radial distance from the institute's main gate or boundary	74 (88%)	60 (79%)	71 (94%)	73 (96%)	44 (97%)	322 (90%)

The educational institutions visited in the observed area suggest that above 80% educational institutions of Bharatpur City had followed the norms of Sec 6(b) of COTPA.

PoS , N=351							
Sec-5 (POS)		Bharatpur Block					
		Bharatpur city N=80	Sewar N=76	Bhusawar/Weir N=75	Kumher N=75	Bharatpur Rural N=45	PoS , N=351
	Number of PoS not advertising tobacco product	80 (100%)	76 (100%)	75 (100%)	75 (100%)	45 (100%)	351 (100%)

100% (351) PoS did not display tobacco advertisement in Bharatpur district which is a positive sign of COTPA compliance.

Chapter -1 Introduction

1.1. Background :

The vast majority of smokers begin using tobacco products well before the age of 18 years. It was predicted that if the pattern seen nowadays continued, a lifetime of tobacco use would result in the deaths of 250 million children and young people alive today, most of them in developing countries.

The overwhelming majority of smokers begin tobacco use before they reach adulthood. Among those young people who smoke, nearly one-quarter smoked their first cigarette before they reached the age of ten. Several factors increase the risk of youth smoking such as:- easy access to tobacco products, and low prices, peer pressure. The highest youth smoking rates can be found in Central and Eastern Europe, sections of India, and some of the Western Pacific islands.

Tobacco kills more than AIDS, legal drugs, illegal drugs, road accidents, murder, and suicide. No other

consumer product is as dangerous, or kills as many people.(WHO)

Table-1.1- Prevalence of Tobacco Use in India		
Smokeless tobacco prevalence (%)	Among youth Current users of smokeless tobacco	Among adults Current users of smokeless tobacco
Male	11.1	32.9
Female	6.0	18.4
Total	9.0	25.9
Youth: Global Youth Tobacco Survey, 2009; National, ages 13-15, Global Adult Tobacco Survey, 2009; National, ages 15+ Tobacco use data from the latest survey results available to WHO as at 31 December 2012		

Smoking bans (or smoke-free laws) are public policies, including criminal laws and occupational safety and health regulations, which prohibit tobacco smoking in workplaces and other public spaces. Legislation may also define smoking as more generally being the carrying or possessing of any lit tobacco product. The rationale for smoking bans posits that smoking is optional, whereas breathing is not. Therefore, proponents say, smoking bans exist to protect breathing people from the effects of second-hand smoke, which include an increased risk of heart disease, cancer, emphysema, and other diseases.

In the interest of public health, The Ministry of Health & Family welfare had issued a detailed notification dated 30th May, 2008 making rules under the Cigarettes and other Tobacco products (prohibition of Advertisement and Regulation of Trade and Commerce, production, supply and Distribution) Act,2003 for the prohibition of smoking cigarettes and other tobacco products.

Table-1.2- Prevalence of Tobacco Use in Rajasthan (Source: GATS 2009:10)

Tobacco Users	Overall (%)	Male (%)	Female (%)
Tobacco Users (Smokers & Users of Smokeless Tobacco)	32.3	50.50	12.9
Tobacco Smokers	18.8	31.5	5.3
Smokeless Tobacco Users	18.9	28.7	8.5

Cigarette and Other Tobacco Product Act, 2003 & Prohibition of Smoking in Public Places Rules, 2008

On October 2, 2008, the Indian Government expanded the prohibition on smoking in public places and workplaces to protect individuals from the hazards of second-hand tobacco smoke. Salient features of the rule:

- Restrictions with regard to smoking apply clearly to hotels, restaurants, refreshments rooms, public places etc which would also include workplaces among other places as defined in each category. Section 4 of the act envisage separately ventilated smoking room termed as "Smoking Area"
- The rules provide that the owner, proprietor or the manager of all the public places shall ensure that no person smokes in the prohibited area under his jurisdiction. It also calls for sign board to be displayed at the entrance of the premises on each floor including the staircase and the lift.
- Detailed provisions have been incorporated for strict implementation of the prohibitory orders.
- The manager of the establishment is liable to be fined for any violation by any person of the above prohibition.
- The head of the institution/HR manager/Head of administration has to be designated/authorised to prohibit smoking at offices and workplaces.
- Ashtray, match boxes, lighters or other things designed to facilitate smoking should not be provided at the workplace.

It will be necessary for the managers to display in the establishment prominently, the name of the person to whom complaints can be made in case of violation of the provision of these rules

1.2. Profile of Bharatpur District

Bharatpur the city is situated 55 km west of the city of Agra and 35 km from Mathura. It is also the administrative headquarters of Bharatpur District and the headquarters of Bharatpur Division of Rajasthan. Bharatpur is also known as "Lohagarh" and the "Eastern Gateway to Rajasthan". It is famous for Keoladeo National Park.

The economy of Bharatpur district is dependent to a large extent on agriculture and its products. The main crops grown are wheat, mustard, cotton, red-chillies and potatoes. There are more than 60 oil mills in Bharatpur due to mustard grown in large quantity in the surrounding areas. Bharatpur is famous for its sweets, and has a large number of shops also.

Table 1.3 Population Statistics of District Bharatpur

Total Population	2,548,462
Total Literacy Rate	70.11%
Community Health Centers	17
PHC	67
SC	397

1.3. Goal of the study

The main goal of the study is to find out the level of compliance among people and entities such as public places and workplaces with the COTPA act, so as to guide enforcement and public health agencies about where to target enforcement and public education resources to gain the status of “Smoke Free and compliant with COTPA act” district

1.4. Objective of the study

- To measure the level of compliance to Section 4 of COTPA in public places across Bharatpur district of Rajasthan.
- To measure the level of compliance to Section 5 of COTPA at Points of sale (PoS) across Bharatpur district of Rajasthan.
- To measure the level of compliance to Section 6 (a) of COTPA at Points of Sale across Bharatpur district of Rajasthan.
- To measure the level of compliance to Section 6 (b) of COTPA in educational institutions across Bharatpur district of Rajasthan.
- To measure the level of compliance to Section 7, 8 & 9 of COTPA across Bharatpur district of Rajasthan.

1.5. Purpose of the study

To ensure the implementation of Sections 4,5, 6(a),6(b) & 7,8, in Bharatpur district, the study observe the compliance of the COTPA sections in different areas like public places, govt offices, private offices, hospitals, educational institutes, bars and pubs, auditoriums, cinema halls, public transport facilities etc in accordance with the COTPA. The results of this study could be used to plan an intervention and for proper implementation of COTPA by enforcement.

1.6 Operational Definitions:

- **“Public Place”** means any place to which the public have access, whether as of right or not, and includes auditorium, hospital buildings, railway waiting room, amusement centers, restaurants, public offices, court buildings, work places, shopping malls, cinema halls, educational institutions, libraries, public conveyances and the like which are visited by general public but does not include any open space.
- **What is Smoke Free:** Section 4 of COTPA deals with Protection from second-hand smoke. All public places should fulfil a few parameters.
 - No Active Smoking
 - No Smoking Aids
 - Display of “No Smoking signage” at entrance/ prominent places of every public places
 - No Cigarettes / Beedi butts
 - Authorization of Enforcement officer
 - Availability of Enforcement Mechanism

Chapter 2- Research Methodology

2.1 Study area

The study area included public places, educational institutes & point of sales of Bharatpur city & four blocks of the district –Sewar, Bhusawar/Weir,Kumher and Bharatpur rural. The blocks were selected by 360 degree approach, to cover all district.

2.2 Study Design-Cross-sectional Study (Formative research)

2.3 Survey type- Observational survey

2.4 Study period –January-February 2015

2.5 Geographical scope (Venues of visit) – For the purpose of study, all the potential public places were divided into **7 broad categories for Section 4:**

- 1. Accommodation facilities** (Hotels, rest houses, sarai, guest house, Dharamshala, rain basera etc.)
- 2. Eating facilities** (standalone restaurants, standalone canteens, bars, dhabas, ahata, street food vendors, food court etc.)
- 3. Offices and workplaces** (Both in Government and private sector)
- 4. Educational institutions** (Both in public and private sector)
- 5. Health care facilities** (Both in public and private sector)
- 6. Most frequently visited places** (Railway stations, market, bus stations, shopping mall, parks and tourist places etc.)
- 7. Public Transport service** (Bus/Taxi/Maxi/Auto Rickshaws)

Section 6 (b)- Educational institutions

Section-6 (a),5 & 7,8,9- Tobacco retail outlets

Table- 2.1 Sampling Framework

Bharatpur	Total blocks of the district	Sample for the study
	Blocks 9	Bharatpur city & 4 blocks (Sewar, Bhusawar/Weir, Kumher & Bharatpur rural)

The sample for the study was taken from Bharatpur city and 4 blocks .The blocks were selected by 360 degree approach. 25% of data will be covered from District Headquarter villages and remaining 75% from rural area.

Table- 2.2 Section wise and total sample size in Bharatpur district

Types of Formats		Total Sample
Checklist I for Survey on Section 4	For public place	366
Checklist II for Survey on Section 6(b)	Educational institutions (both in public and private sector)	357
For Section 5 PoS and Section 6 (a) & for Section 7, 8 & 9 (Pack warning)	Point of Sale & (Pack warning)	351

2.6 Observation Methodology

The field investigators visited district headquarters and observed each of the sampled units (public places, educational institutions/PoS) one by one during peak business hours as per the prefixed schedule. During the study, an unobtrusive observation was made and a structured checklist was filled.

2.7 Tools

Total three survey Checklist was used in the survey

1. Checklist I: for Section 4
2. Checklist II: for Section 6 (b)
3. Checklist III: for Section 6 (a), Section 5 (PoS) and Section 7, 8 & 9 (Pack warning)

2.8 Quality Control

- A repeated deliberation was carried out with the field investigators on the methodology.
- While making an observation, adequate coverage of place and adequate time spent was ensured.
- The survey was done strictly during peak business hours as per the pre-fixed schedule.
- Questions were designed and were asked in such a way to minimize the biases.
- Back check or cross check of the filled checklist of the field investigators. was done by supervisor
- For any queries or barriers SIHFW team has sorted out the problem

2.9 Data Management

The quantitative data entry and analysis was done using statistical software – SPSS 16.0 to avoid any discrepancies in data analysis. After the data entry, the quantitative analyst was involved for data analysis. A double entry process was adopted to limit the amount error that may have entered during data entry. Descriptive statistics (Mean, STD, Min and Max values) was used to check for missing data, outliers or illogical values and data was cleaned as needed. Descriptive statistics along with cross tabulation was applied in data analysis.

3.0 Ethical Consideration

The research proposal and tools for data collections were ethically approved by the Institutional Ethical Review Board of SIHFW. Prior informed consent was obtained from designated authorities by SIHFW and verbal consent was obtained from retailers who have been interviewed in the study. The consent was read to illiterate and then interview was taken by the team.

Chapter 3- Result and Analysis of Section 4 of COTPA Act

Compliance of Section 4 of COTPA

Prohibition of Smoking in Public Places - Section 4 of COTPA, 2003:

- No person shall smoke in a public place
- Provided that in a hotel having thirty rooms or a restaurant having seating capacity of thirty persons or more and in the airports, a separate provision for smoking area or space may be made.”

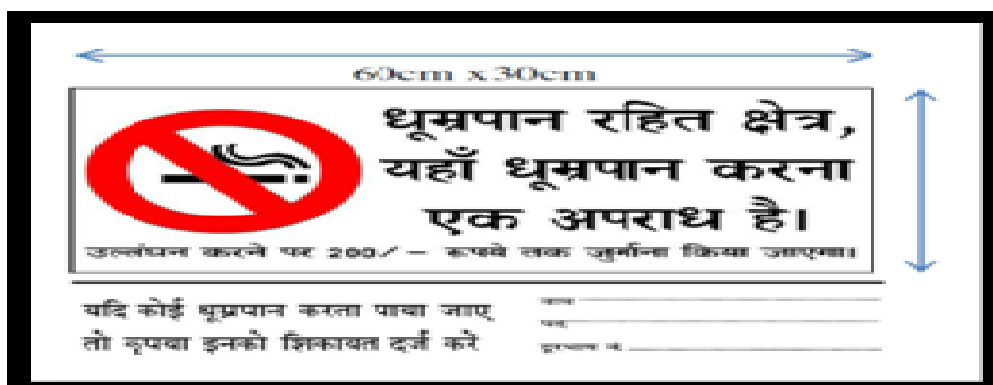

A warning board “No Smoking area” has to be displayed by the owner/in charge of the public place. There is certain exemption to this rule; a hotel having thirty rooms can have smoking rooms and designated smoking zone or area whereas in a restaurant having seating capacity of thirty persons or more and in the airports, a separate provisions for smoking area or space may be made.

What are public places?

Section (4) of the COTPA 2003 prohibits smoking in all public places. ‘Public Place’ is defined as any place to which the public has access whether as of right or not and includes all places visited by general public namely auditorium, hospital building, railway waiting room, amusement centers, public offices, court buildings, educational institutions, libraries, coffee houses, canteens, banks, clubs and also open spaces surrounding hotels/restaurants etc .

What are public places supposed to do?

1. Display the signage as per the specification given in the Figure below:

- a) The board shall be of minimum size of 60 cm x 30 cm of white background;
- b) It shall contain a circle of no less than 15 cm outer diameter with a red perimeter of no less than 3 cm wide with a picture, in the centre, of a cigarette or beedi with black smoke and crossed by a red band;
- c) The width of the red band across the cigarette shall equal the width of the red perimeter;
- d) The board shall contain the warning “No Smoking Area- Smoking Here is an Offence”, in English or one Indian language, as applicable;
- e) The board shall be prominently displayed at each entrance of the public place and a conspicuous place(s) inside the building. If there are more than one entrance then at all entrances and exits. If there is more than one floor, at each floor including the stair-case and entrance to the lift at each floor.
- f) Notify and display the name of a person (designated officer) to whom a complaint may be made, in case someone is found violating the law.

2. Ensure that no ashtrays, matches, lighters or other things designed to facilitate smoking are provided.

3. Assigning a responsible officer to whom complaint may be lodged in case anybody is spotted smoking.

Can public places have a separate smoking area?

All public places have to be smoke-free. However, hotels having 30 or more rooms and restaurants having seating capacity of 30 or more and airports may provide a separate designated smoking area.

A smoking area / space

- 1. Should be used only for the purpose of smoking and no other service(s) shall be allowed.
- 2. Shall not be established at the entrance or exit of the hotel, restaurant or airport and shall be distinctly marked as ‘smoking area’ in English and one Indian language as applicable.
- 3. Physically separated and surrounded by full height walls on all four sides. Having an entrance with automatically closing doors, and is fitted with an exhaust ventilation system which is non recirculating in nature or an air cleaning system or a combination of two, in such a manner that air does not permeate into non smoking areas. The Smoking area has a negative air pressure in comparison with the remainder of the building.

What constitutes violation of Sec 4?

- If public places do not put up specified signage
- Presence of ashtrays and lighters, matches or any other device to facilitate smoking.
- Smoking area established at the entrance or exit of an establishment as specified in the law.
- Smoking room with improper air flow system.
- Presence of a separate smoking room in a public place which is NOT an airport , hotel with more than 30 rooms or a restaurant with a 30 seating capacity.
- Designated officer for reporting of violations is not mentioned.

What happens if Sec 4 is violated?

- Any violation of any Provision in this section is a punishable offence with fine extending up to Rs. 200.
- An offence under this section shall be compoundable and shall be tried summarily in accordance with the procedure provided for summary trials in Code of Criminal Procedure, 1973.”
- If the owner, proprietor, manager or supervisor, or in-charge of affairs of the public place fails to act on the report of such violation, he shall be fined equivalent to the number of individual offences.

Table 3.1: Number of public places visited in Bharatpur district

	N=366							
	Type of Public Place							
	Accommodation Facilities	Eateries	Educational establishments	Offices and Workplaces	Health care facility	Most frequently visited places	Public Transport Facility	Total
Bharatpur city	14	12	10	15	14	12	13	90

Smoking aids (ashtray, matchboxes, and lighters) not visible	4	5	12	10	11	3	45 (90%)

Active smoking was not found in 88% (44) public places. Smoking aids and evidence of smell or ashes were not visible in 90% (45) places visited in Bharatpur rural.

Chapter 4- Result and Analysis of Section 5, Section 6(a), Section 6 (b), Section 7, 8, 9 of COTPA Act

Section 5 of COTPA, 2003: Prohibition of Advertisements, Promotion and Sponsorship of all Tobacco Products.

- Both direct & indirect advertisement of tobacco products prohibited in all forms of audio, visual and print media
- Total ban on sponsoring of any sport and cultural events by cigarette and other tobacco product companies
- No trade mark or brand name of cigarettes or any tobacco product to be promoted in exchange for sponsorship, gift, prize or scholarship
- No person, under contract or otherwise, to promote or agree to promote any tobacco product.
- However, advertisements of tobacco products are permitted at point of sale (PoS) and on retail packages but under certain restrictions.

Advertising is the process of calling the attention of the public to a product or service by a business. More specifically, there's a desire to manipulate and encourage a target audience into not only desiring a product or service, but to feel a certain way about it and without this product or service, they will lack this feeling. Similarly Tobacco marketing has been a key issue in tobacco litigation. Plaintiffs and their attorneys have often asserted that tobacco companies have marketed their products using advertising and promotional techniques that have targeted youth (including the plaintiffs) with messages and images designed to increase the desirability of tobacco use while obscuring its dangers.

Table 4.1 Compliance of Section 5 of COTPA

Bharatpur Block						
	Bharatpur city N=80	Sewar N= 76	Bhusawar/Weir N= 75	Kumher N= 75	Bharatpur Rural N= 45	PoS , N=351
Number of PoS not advertising tobacco product	80	76	75	75	45	351

Total 351 Point of sales were visited during the study, out of which **100%** (351) **were not advertising the tobacco products**. The Bharatpur city and all the 3 blocks follow the section 5.

Section 6 (a) of COTPA, 2003: Prohibition on Sale to Minors

- Sale of tobacco products to and by the persons under the age of 18 is prohibited.
- The seller (shopkeeper) has to ensure that the person who is buying the tobacco product is not a minor.
- A specified display board to be put up at the point of sale declaring that “sale of tobacco products to minors is prohibited”

**Table 4.2 Display of Signage at PoS**

	PoS , N=351					Total N=351
Sale of Tobacco Products		Bharatpur Block				
	Bharatpur city N=84	Sewar N= 76	Bhusawar N= 75	Kumher N=75	Bharatpur Rural N=45	
Display of signage	61	48	50	63	22	244 (70%)
	N=61	N=48	N=50	N=63	N=22	N=244
Display of signage as per COTPA	61	48	50	63	22	244 (100%)
Signage placed at prominent place	60	48	50	63	22	243 (100%)

Among 351 shops evaluated, which were selling tobacco products in Bharatpur, **70% (244) shops displayed the signage** which shows “Selling of tobacco products below 18 years is an offence” was less to required norms. The display of signage is very low to be considered for compliance of COTPA though the displayed signage follows COTPA specifications.

Table 4.3 Sale of Tobacco products to and by Minors at PoS

	PoS , N=351					Total N=351
Sale of Tobacco Products		Bharatpur Block				
	Bharatpur city N=84	Sewar N= 76	Bhusawar N= 75	Kumher N=75	Bharatpur Rural N=45	
Products are not sold to minors	84	74	70	75	31	334 (95%)
Products are not sold by minors	73	74	67	74	45	333 (94%)

Out of 351, **95% (334) PoS were not selling the products to the minors and 94% (333) PoS were not selling the products by the minors.** That is very good indicator which shows that compliance to Section 6(a) of COTPA is followed at selling points.

Section 6 (b) of COTPA, 2003: Prohibition on Sale of Tobacco Products Within 100 yards of Educational Institutions

- In order to restrict access of youth for tobacco products, the sale of the tobacco products is prohibited within a radius of 100 yards of an outer boundary of an educational institution.
- A display board has to be put up outside the educational institutions declaring the same.

Adolescents in the age group of 14-19 years are the most susceptible to initiate use of tobacco use in both rural and urban areas. An effective school level tobacco control policy would play a vital role in deterring tobacco experimentation among adolescents. Schools with tobacco control policies have reduced tobacco use as compared to those without such policy, both in rural and urban areas. Societal influences, such as, parents' and closest friend's tobacco use, lack of knowledge on harmful effects of tobacco, positive attitude towards tobacco use by family members and viewing of tobacco advertisements are strongly associated with tobacco use. To counter development of such pro-tobacco attitude, teaching

and training to students should be mandated in all schools. School teachers and counselors ought to be oriented on the facts related to tobacco production, distribution channels and consumption patterns amongst adolescents so that they could play a deterrent role for those initiating this and could help the users give up this habit.

Table 4.4: Type of Kiosk/Shop found Selling Tobacco Products Within 100 yards of Educational Institute

Education Institutions, N=357						
Norms of Section 6b	Bharatpur Block					
	Bharatpur city N= 84	Sewar N=76	Bhusawar N= 75	Kumher N= 76	Bharatpur Rural N-45	Total N-357
Signage as per Section 6 b of COTPA is displayed	75	57	59	52	28	271 (76%)
No Sale of Tobacco Products inside the Campus	84	76	75	76	45	357 (100%)
No Sale of tobacco products within 100 yards of radial distance from the institute's main gate or boundary	74	60	71	73	44	322 (90%)

In order to check the compliance of Section 6 (b) total 357 Educational institutions were visited in Bharatpur district, **76%** (271) from the total have **displayed the signage** which shows "Prohibition on Sale of Tobacco Products Within 100 yards of Educational Institutions". The displaying of the signage in schools was not sufficient to achieve the compliance.

All the institutions visited strictly adhere to the compliance by not selling the tobacco products inside the campus. **90% of education institutions have strictly followed Section 6(b) of COTPA, the tobacco products within 100 yards of Educational institutions were not sold.**

Section 7, 8 & 9 of COTPA, 2003: Prohibition on Sale of Cigarettes and Other tobacco products without specified health warnings

- All tobacco product packages need to carry prominent and legible health warnings.
- These warning shall also be pictorial in nature.
- The warnings will be given in the same language as given on the pack.
- All imported tobacco products should also carry the specified warnings.

Table 4.5 Number of products assessed in Bharatpur district

More than one language on the pack	0	0	0

Total 132 samples of tobacco products were observed in Bharatpur rural block. And **all the observed brands of Cigarette, Beedi and smokeless have health warning on their packaging.**

Chapter 5- Conclusion

Though Rajasthan was one of the leading States to implement the law against public smoking and advertising of tobacco products in 2003, the compliance rate in the State is still low and its policies require more rigorous enforcement with regard to display and sale of tobacco products and “No Smoking” signage at public places. The Cigarettes and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, enacted in 2003, has three sections which address smoke-free environment, tobacco advertising, promotion and sponsorship and sale of tobacco products to minors. Tobacco advertising needs to be restricted and easy access to tobacco products should be eliminated especially for the youth.

The current compliance monitoring survey indicates that sincere efforts of Bharatpur district administrations along with its partners PSI have played a major role in effective implementation of Section 4, 5, 6 of COTPA act. Thus district Bharatpur may be declared as smoke free.

Conclusions:

Section 4:

From total 366 public places visited, **no smoking signage was displayed at 84%** of the places. Evidence of active smoking, were not seen at the time of visit in above 93% public places.

- No evidence of smell/ashes of recent smoking was found at 89% of public place. Similarly, at 89% public place, smoking aids as ashtray, matchboxes and lighter were not visible

Section 5:

Total 351 Point of sales were visited during the study, out of which **100% did not advertise the tobacco products**. This compliance to Section 5 indicates strict enforcement and monitoring.

Section 6 (a):

From the 351 PoS visited only 69% PoS displayed the signage.

All displayed signage were as per COTPA specifications.

95% PoS were not selling the products to the minors and 94% PoS were not selling the products by the minors.

The displayed signage at the POS was insufficient to be qualified for compliance despite following COTPA specifications.

Section 6 (b):

- In order to check the compliance of Section 6 (b) total 357 Educational institutions were visited, only 76% displayed signage "Prohibition on Sale of Tobacco Products within 100 yards of Educational Institutions".
- All the institutions visited were strictly adhering to the compliance by not selling the tobacco products inside the campus.
- The tobacco products within 100 yards of Educational institutions were not sold by 90% PoS.
- More than three forth (76%) of the education institutions followed Section 6b compliances. There is need for strict monitoring and enforcement in Bharatpur

Section 7,8 & 9:

- 100% tobacco products have Health Warning on the packs and it was written on the pack in red font with black background.
